Media Release

28 November 2017

BESTON WINS EXPORT AWARD AND FINALIST FOR BUSINESS EXCELLENCE AND PRIMARY PRODUCER CATEGORIES AT THE SOUTH AUSTRALIAN FOOD INDUSTRY AWARDS

Beston Global Food Company (ASX: BFC) is pleased to announce that it has been awarded the Visy Export Award at the South Australian Food Industry Awards, as well as being nominated as a finalist in two other award categories: the Royal Agriculture and Horticultural Business Excellence Award and the Thomas Foods International Primary Producer Award.

The South Australian Food Industry Awards are widely regarded as the most prestigious awards in South Australia, and recognise businesses that are making significant breakthroughs in the food industry through their outstanding vision, leadership and innovation. The South Australian Industry Awards Program is run by Food South Australia, who are an independent, industry-led and membership based organisation representing food and beverage manufacturing companies based in South Australia.

BFC Chief Executive, Sean Ebert, said "It is a great honour to receive this award considering the high calibre of the other nominees in the category. We are proud to be exporting a wide range of great South Australian products to our customers in both ASEAN and CHINA regions with our in-country sales teams. This year, our company has won over 24 awards in both Australia and abroad for our products, and it is great that the business and our people receive acknowledgment for their efforts."

Our Food SA Export Award, along with our various other awards and nominations have all been achieved within a period of two years since listing on the ASX, and is a testament to the hard work and dedication of our employees," Mr Ebert said.
