Beston Global Food Company

Continuing a long tradition

Beston Global Food Company is continuing the tradition that has been in place for well over 50 years of supplying products not only for the local domestic market, but also for markets across Asia and Europe.

Our cheeses are made in South Australia in our processing plants located adjacent to the great Australian Murray River. Having started over 70 years ago as co-operatives, both the plants and our cheesemakers have a long history of producing high quality dairy products, made from the worlds' best fresh dairy milk.

Located adjacent to fine grazing pastures and only within a few hours of the lush South East of South Australia, ensures that our plants are continually supplied with the freshest milk, on a daily basis. Our experienced

and skilled cheesemakers take that freshness to craft and create high quality, creamy and smooth cheeses.

Parmesan, Cheddar and Vintage cheeses are produced with traditional and time honoured methods where the curd is packed in cheese cloth lined hoops and waxed.

Both Murray Bridge and Jervois plants are within one hour of the city of Adelaide, allowing quick and efficient access to shipping ports and an international airport for rapid transit of products to markets within Asia and Europe.

Whether it be a mild creamier flavoured cheddar or a dry crumbly vintage cheese, the Beston Global Food Company range provides you with the highest multi award-winning quality and taste.

Beston's Edwards Crossing Award winning cheeses

Cheddar

Fine cheese, full of flavour and with just enough bite.

Aussie Allrounder

Australia's Best Semi-Hard Cheese

Easy melt with a mild, slightly nutty flavour.

Pepato

Italian style cheese with a peppercorn bite, traditionally matured.

NEW!

Mozzarella

Low oiling, improved stretch, using the best natural ingredients.

MOZZARELLA

INTRODUCING A NEW MEMBER TO
OUR AWARD WINNING FAMILY!

From the makers of the 'Best Cheddar Cheese in Australia' awarded in 2017 and 2019 by the Dairy Industry Association, the **NEW** Beston's Edwards Crossing Mozzarella is crafted at Beston's Jervois factory in South Australia. The combination of the world's best technology, skilled cheesemakers and the freshest milk supplied on a daily basis ensures that **Beston's Edwards Crossing Mozzarella is pizza perfection!**

The EDWARDS CROSSING MOZZARELLA *Difference*

- New state-of-the-art technology delivering product of the highest quality
- Made from milk locally sourced in South Australia
- Low oiling and improved stretch
- Firm and fibrous in texture for high volume shredding
- Even browning at higher temperatures
- Made by experienced cheesemakers who balance the use of modern equipment with traditional artisan methods

"It is important that Mozzarella when cooked is; light golden, not too dark, soft, not chewy or rubbery and creates small blisters without burning and after much testing with Pizza makers feedback is telling us that our 'Moza' delivers this and exceeds other brands on the market."

Paul Connolly, the Master Cheese Maker
at Beston Global Food Company

Soft Dairy and Powders

Soft Dairy

BUTTER (SUBJECT TO AVAILABILITY)

Beston Global Food Company can produce butter from fresh cream and whey cream depending on our client's requirements. Fresh cream can either be sourced externally or is produced following homogenisation of milk at our Jervois Plant, whilst whey cream is sourced from our cheese making process.

Quark is developed specifically in bulk order for our clients and often used as a dairy ingredient.

Available in	Size	Packed in	Per Carton
CREAM BUTTER (salted/unsalted)	25kg	Bag	1
GRADE BUTTER (salted)	25kg	Bag	1
QUARK	1000kg	Bag	N/A

Whey Powders (SUBJECT TO AVAILABILITY)

Beston Global Food Company powders are free flowing and free from non-collapsible lumps and visible scorched particles. Our powders have multiple applications including confectionery, ice-cream manufacturing and as an economical dry dairy ingredient.

Available in	Size	Packed in	Unit

BESTON
GLOBAL FOOD COMPANY

A Beston Global Food Brand

Beston's Edwards Crossing

Beston Global Food Company is proudly South Australian, employing nearly 300 people directly and indirectly. At the prestigious 2017 and 2019 Dairy Industry Association of Australia Awards, Beston Global Food Company won the title "Best Cheddar Cheese in Australia" for its Edward Crossing Vintage Cheddar Cheese and in 2018 our company won the title of "Best Colby in Australia". To date over the last three years, Beston Global Food Company has won a total of 97 medals for its range of products.

Beston's Edwards Crossing - a little bit of history

Our cheeses are made in Murray Bridge, South Australia in our processing plants adjacent to Australia's longest river, the Murray River. Our location near the fine grazing pastures of Murray Bridge, ensures our plants are continually supplied with the freshest local milk.

Edwards Crossing takes its name from George Edwards - one of the original settlers of the Murray Bridge region.

He built the 'Edwards' homestead overlooking the Murray River, where many local farmers would cross with their herds as they made their way to Adelaide. Beston's Edwards Crossing pays tribute to the pioneers of yesteryear by using only the best natural ingredients and remaining true to traditional cheese making methods.

The EDWARDS CROSSING *Difference*

AT EDWARDS CROSSING WE ALWAYS PUT QUALITY FIRST...

That is why we use over 10 Litres of Milk for every Kilogram of cheese produced, to create a smoother and creamier texture when compared to other cheeses in the market.

AT EDWARDS CROSSING WE RESPECT THAT CHEESE MAKING IS AS MUCH AN ART AS IT IS A SCIENCE...

We have perfected the Moisture to Salt Content to ensure our cheese matures slowly and evenly over time.

AT EDWARDS CROSSING WE KNOW YOU CAN'T HURRY NATURE, CHEESE IS READY WHEN IT'S READY...

We never ever use adjuncts to artificially speed up the process. That is why our cheeses are not only full flavoured, but also have the optimal texture.

AT EDWARDS CROSSING WE DO THE WAITING SO YOU DON'T HAVE TO...

Environmental factors such as rainfall, location and pasture lead to variations in fresh milk. We respect these variations by monitoring our ingredients and waiting until they have reached the desired quality before releasing them to the next stage in the cheese making process. We take the time to extract the very best from our ingredients to bring you the finest quality cheese.

AT EDWARDS CROSSING WE ARE A PROUD SOUTH AUSTRALIAN COMPANY WHO SUPPORTS LOCAL DAIRY FARMERS...

Located adjacent to grazing pastures in the fine dairy region of Murray Bridge, our plant is continually supplied with the freshest local milk.

Beston Global Food Company

Provincial Food Group

Provincial Food Group (PFG) is a wholly owned subsidiary of Beston Global Food Company. PFG manufacture food products for Export and Domestic requirements in the Retail and Foodservice markets. PFG also operates in the B2B segments as a supplier of raw diced and minced meat to other food manufacturers.

A **“Tailored Food Solutions Provider”**, PFG holds as its mission: “To be the Value-Added Meat and Food products’ Partner of Choice, delivering Quality Products backed with Reliability and Service, at Competitive Pricing”.

Sourcing meat and inputs from a range of preferred suppliers, PFG’s Value Add Meats and Non-Meat based foods are to the highest standards of food safety and customer expectations.

PFG achieves this by sourcing fresh and frozen raw materials from carefully selected suppliers that have demonstrated they will provide high quality products that meet our strict Food Safety objectives.

PFG’s commitment to the Highest Quality and Safety Standards is demonstrated through its third party audited accreditations, including;

- **SQF Level 8 Certified for Manufacturing, Processing and Distribution**
- **HACCP SGS Accredited Food Safety Plan**
- **Prime Safe Victoria Government Accredited Further Processing Facility**
- **HALAL ICCV Accredited for Lamb, Beef, Veal and Chicken**
- **Australian Government Department of Agriculture – License to Export Meat Est 5026**

PFG's direction is driven by Continuous Improvement initiatives, innovation in process and product development, as well as commitment from all personnel to Quality and Safety. PFG maintains the highest standard in manufacturing excellence to be at the forefront of continually providing customers with fresh, high quality, safe and exciting food products.

Driven from within its strict Quality and Safety Guidelines, PFG's current "Tailored Foods Solutions Capabilities" are provided from:

- **Raw Comminuted Meat Products:**

Raw Mince and Diced meat up to 100 tonnes per week, bulk packed. Foodservice and Retail packs, frozen up to 10 tonnes per week.

- **Raw and Par Cooked Formed Meat and Vegetable Products:**

Formed burgers, meatballs, coated, deep fried, par cooked or raw, in sizes from 6gms to 200gms portions. Individually Quick Frozen (IQF), bulk packed or tray packed. Formers and freezers operate to 500kgs per hour, depending on the individual weight of the products.

- **Fully Cooked Sous-Vide Meat and Non-Meat Products:**

PFG have two ovens holding approximately 1000kgs each, turning over twice per day (can turn three times per day, if required), for a current capacity of approximately 20 tonnes per week.

- **Tray Packed Raw Meat Value Added Products:**

Portion cuts, tray packed frozen for Retail or Foodservice delivery and display to approximately 3000 packs per day.

- **Co-Packing to Customer Requirements:**

Provincial Foods can co-pack other manufactured products to our customers' requirements.

Examples of products being produced include, but are not limited to;

- Cooked Retail Lamb Packs
- Raw, Par Cooked and Cooked Burgers, Meatballs, Sausages, Koftas
- Par Cooked and Cooked Ribs and Roasts
- Beef Breakfast Strips – Bacon substitute in Halal markets

Minimum order quantity on all products is 200kgs.
